Swetha S

Full Stack Web Developer

PROFESSIONAL SUMMARY

A meticulous and highly skilled Full Stack Web Developer, specializing in the MERN stack. With more than 1200 hours of hands-on coding experience, I bring a strong dedication to my work. Skilled full stack developer and quick learner who possesses the ability to adapt with new environments quickly. Looking for a challenging role in industry to utilize my skills and learn.

PROJECTS

1. Todo App | |

React | Git | JavaScript | HTML5 | CSS3 | Node.js | Express.js | MongoDB | Responsive Web Design

- Implemented login, signup, logout, add, delete, and update functionalities using the MERN stack to enhance task management.
- Developed reusable components and integrated frontend and backend for streamlined development and code efficiency.
- Completed as an individual project in 3 days, demonstrating effective time management and coding skills.

2. Weather App | |

JavaScript | React | Git | HTML5 | CSS3 | Responsive Web Design

- Developed a responsive user interface using React.js, ensuring seamless interaction across devices.
- Integrated Weather API to fetch and display real-time weather data dynamically.
- Implemented live location display using real maps for accurate weather updates.
- Completed the project within a tight timeline, showcasing adaptability and quick learning abilities.

3. Nordstrom Rack - Clone | |

JavaScript | HTML5 | CSS3 | Git | React

- Developed a comprehensive online shopping platform using React to enhance user experience and engagement.
- Implemented a dynamic product slider to showcase featured items, increasing user interaction.
- Completed the project independently within a three-day timeframe, showcasing effective time management and coding skills.
